Car GPS Tracker | Car GPS Tracking

Meiligao (Meitrack), founded in 2002, is one of the leading GPS tracker manufacturer located in Shenzhen China.

Our team includes 18 overseas and internal salespersons, 20 hardware and software engineers and around 150 workers. Our strong team enables us to provide you with:

1. Professional technical support
2. Smooth communication
3. Stable quality
4. Soonest delivery
5. Acceptance of OEM/ODM

In order to provide more instant service, Meiligao (Meitrack) has set up a branch (Meitek Inc) in Los Angeles USA since 2010.

Welcome to choose us as your best partner. For more information, please view our website www.meitrack.net

Our product lines include personal GPS tracker, car GPS tracker, and GPS tracking software.

Car GPS tracker includes VT series and MVT series. VT series use Meiligao protocol, while MVT series use Meitrack protocol.

In 2010, we marketed a new model with Meitrack protocol – MVT600. Its powerful functions make it receive great popularity since it first came out. It supports below optional accessories:

LCD Display

It can be used as GPS navigation and media player. Besides, it can make phone call and send SMS, receive message from server, and display the time, longitude, latitude, speed etc.

RFID Reader

It is used to identify the driver ID, which is suitable for fleet management.

Handset Phone

It is used to make and receive phone calls.

Camera

It is used to take photo when some events occur.

Fuel Sensor

It is used to detect the remaining fuel level.

Vehicle Tracking System | GPS Tracking Device

Meitrack's GPS Vehicle Trackers allow customers to pinpoint the exact location of their vehicle. With the use of these devices, customers can receive position data from the tracker directly to their mobile phone or computer.

Meitrack's Vehicle Trackers provide customers with advanced features such as voice monitoring, two way audio, geo-fencing, impact alarm, tow alarm, speeding alarm, data packet storage, camera, and engine cut. Some vehicle trackers are waterproof and have digital and analog inputs and outputs, which allow for different types of reports and applications.

With the use of Meitrack's GPS Vehicle Trackers, an individual never has to worry about the safety and security of their vehicle.

Meitrack To Participate in a Host of Top Rated Domestic and International Trade Shows

WEDNESDAY, 08 AUGUST 2012 02:23

August 8, 2012 El Monte, CA -- Over the coming year, Meitrack, is all set to reach out to a large number of resellers, distributors, retailers, and other professionals by participating in a range of domestic as well as International trade shows. Meitrack will host dedicated booths at all these venues and hopes to create widespread awareness by showcasing its cutting edge GPS tracking devices.

Earlier this year, in January, Meitrack attended the CES 2012 in Las Vegas and successfully reached out to many potential customers and interested clients. The CES 2012 turned out to be a massively popular event and set new records with more 153,000 attendees participating in the trade show this year.

Meitrack has also explored Latin American territory by attending trade shows in Brazil and Mexico. The Expo Seguridad, and the Expo Carga were held in Mexico city In April & June, while Exposec and Bits were held in Brazil in the month of May.

Looking ahead, Meitrack will make its presence felt in Colombia and Argentina, by attending three trade shows across the regions. The Sala Logistica de las Americas will be held in Bogota Colombia and is scheduled to open floors from August 1-3, 2012, while Buenos Aires Argentina will play host to Expo Logisti-k from August 7 to 10, 2012, and Intersec from August 15 to 17, 2012.

Meitrack offers award winning GPS devices and solutions that can deliver tailor-made tracking technology to both mainstream and niche industries such Cargo & logistics, Aircraft, Construction, Waste management & more. From large scale fleet management solutions, to individual personal and pet tracking devices, Meitrack specializes in delivering real time GPS data that improves business efficacy and sets your mind at ease.

About Meitrack:
After delivering award winning GPS Tracking solutions to small, medium and large sized business, and personal users in China since 2001, Meiteck Inc. recently expanded to in El Monte, California. Meitek Inc's management system is ISO 9001:2008 certified and boasts of a product portfolio that spans over 25 countries.

"Meitrack Inc. Debuts Shiny New Website that is Sure to Put GPS Tracking on the Map"

TUESDAY, 29 MAY 2012 09:37

June1st 2012 El Monte, CA - Meitrack, a leading global provider of trusted and cutting edge GPS tracking solutions has unveiled its new look, informative and highly user friendly website with products focusing exclusively for businesses and consumers located in the United

Tow Truck Tracking
Waste Management
Law Enforcement Vehicle Tracking

States.

According to a representative at Meitrack – "Several hundreds of hours and gallons of coffee were spent organizing the new website, and redefining the layout to create the most user-friendly and unique online experience for our readers. In the end, it was all worth it."

The new GPS tracker website is aimed at not only providing the reader with accurate and timely information on GPS technology and its related applications but also at engaging the reader with a variety of non-GPS topics focusing on technology and social awareness. Detailed product walkthrough videos, simplified product pages and easy access to information assure a high reader engagement and revisit rate.

No messy and overwhelming tech specs. The new website offers detailed product descriptions of the latest in real-time GPS trackers in a simplified and comfortable layout. With its seamless browsing capabilities, users can now make smooth transitions from one GPS tracker device to another and shop directly from the site. What's great about the new product page layout is that it now offers technical specs, photographs, Q & As, shipping details as well as unbiased reviews and ratings for each model on well-designed embedded tabs on a single page!

Sign up for newsletters and stay updated on the latest in product training manuals, reseller/distributor news, company information & much more. With easy to use social media plugins, sharing has never been easier. If you like a video and want to share an article with your friends, there are Facebook, Twitter & YouTube plugins on every page. Meitrack's website now has a fresh new blog which focuses on technology and social awareness offering extremely relevant and useful information.

With links to partners, awards, certifications and more, the Meitrack's revamped company page captures the essence and direction that the company is looking to take rather well. For information, queries or any assistance, visit Meitrack's support page where company representatives are available 5 days a week to offer immediate solutions.

About Meitrack:

After delivering award winning GPS Tracking solutions to small, medium and large sized business, and personal users in China since 2001, Meiteck Inc. has set up shop in El Monte, California. Meiteck Inc's management system is ISO 9001:2008 certified and boasts of a product portfolio that spans over 25 countries.
